Star kicks off 96th Santa Claus Fund drive

By LEON LERNER

Holiday frogs are dropping in droves onto trees and bushes from the trees — the first sign that Christmas is near.

While the official opening of the Santa Claus Fund drive is still some time away, the Frogs are already in full swing. The Frogs' annual fund-raising campaign is an important part of the drive, and they are already making great progress towards their goal of $1 million.

While the Frogs are busy raising money, the children in our city are preparing for the holiday season. They are busy shopping for gifts, baking cookies, and writing letters to Santa. Many of them are also enjoying the many events and activities that take place during the Christmas season.

The Frogs are a fun and energetic group, and they are always ready to help others. They are a great example of the spirit of giving that is so important during the holiday season.
